

Sinclair does not own the public airways, the taxpayers do. Forcing stations to broadcast propaganda is violation of law, not to mention ethics and the public trust. The FCC has shown remarkable resilience throughout the last 4 years in not bowing to the Herculean efforts of this administration to serve the interests of corporations, not people. Sinclair is trying to ensure 4 more years of rewards and handouts from a corrupt administration that is out of control. I expect that you will act in this instance to preserve our free and fair democracy. Thank you.
